

Thomas Waite

Computer Science Student

Phone (801) 628-0557

Email thomas.waite03@gmail.com

Experienced student looking for internships/jobs in the Computer Science and related fields. Experienced with the agile development methodology and in modern programming languages such as Python and Java. Capable of managing time and maintaining organized and highly readable code. Eager to learn new things and be a part of a team.

Skills

Python, Java, JavaScript, HTML, CSS

Experience with Git, Linux, Django, Agile, and Technical Writing

Excellent in Time Management and Working on a Team

Work History

May 2021 – Sales Associate

Aug 2021 *Home Depot, Logan, UT*

- Kept inventory accurate through correct logging of new products, readjusting as needed and ensuring all products had their price tag.
- Enhanced operational efficiency by using slow periods to restock products on the shelves. Also used an approach to prioritize certain high selling items first.
- Developed exceptional attendance record with special attention to punctuality and preparation to work upon arrival.

Jun 2016 - Software Engineering Intern

Aug 2016 *Spillman Technologies Inc., Salt Lake City, Utah*

- Wrote code in TypeScript using the NativeScript framework and Visual Studio.
- Attempted to modify the existing web application of the company to be compatible with the NativeScript framework, with the hope of gaining a significant performance boost on mobile devices.
- Coordinated with software engineers to evaluate and improve software.
- Attended daily and weekly scrum meetings with software engineers on my team.

Education

Aug 2014 - High School Diploma

May 2017 *Davis High School - Kaysville, Utah*

Jan 2020 - Bachelor of Science: Computer Science

Current *Utah State University - Logan, Utah*

GPA: 3.8

Accomplishments

- Sterling Scholar finalist in Computer Technology
- Awarded the Dean's Scholarship at USU
- Awarded a scholarship from the Society of American Military Engineers (SAME)
- Eagle Scout
