EDUCATION

Utah State University, College of Science — Logan, UT

Bachelor of Science, Computer Science — May 2023

- GPA: 3.78
- Cum laude
- Recipient of the Dean's scholarship.

WORK EXPERIENCE

Weber Basin Water Conservancy District — Layton, UT

Application Developer Intern — May 2022 – Present

- Maintained public websites for a water district serving over 700,000 people.
- Wrote code in C# and JavaScript for several ASP.NET applications while working in an agile environment.
- Modified the schema of multiple SQL Server databases and wrote queries regularly for use in the company's applications.
- Communicated regularly with employees from across the company about requested features and the progress being made.
- Proposed and implemented a solution for fixing a document management system, by migrating to a hybrid cloud environment, saving the engineers time and providing them with a better interface.
- Refactored thousands of lines of redundant code, improving readability and reducing the number of places where bugs can occur.
- Automated the work trip request and approval process and used an API to ensure that allowances were compliant with relevant financial standards.

The Home Depot — Logan, UT

Sales Associate — May – August 2021

- Kept inventory accurate through correct logging of products, readjusting as needed.
- Provided excellent customer service by helping customers find the right products for their projects.
- Enhanced operational efficiency by using slow periods to restock products on the shelves.
- Developed exceptional attendance record with special attention to punctuality and preparation to work upon arrival.

DoorDash — Layton, UT

Delivery Driver — April 2020 – January 2021

- Delivered food to customers quickly while preserving the food's temperature, resulting in overall ratings of 4.8+ stars.
- Maintained detailed records of daily expenses, tips, and miles driven, making it easier to file taxes as an independent contractor.
- Increased profits by accepting multiple orders going to the same neighborhood and choosing to work when demand was highest.

SKILLS / INTERESTS

- Proficient in C#, Python, Java, SQL, HTML, ASP.NET.
- Intermediate in JavaScript, Git, and CSS.
- Basic understanding of Django, AWS, Bash, Scikit-learn, PyTorch, and Linux.
- Aspiring Polyglot – Fluent in Spanish, after living two years in Mexico. Other linguistic interests include Portuguese and French.
